Sir:

Prior to examination of this application, please amend this application as shown herein.

IN THE SPECIFICATION

Please amend the Specification as follows:

[0014] Essentially, in accordance with the present invention, as illustrated, a wireless, keyless (no traditional telephone keypad) telephone instrument incorporates an earphone, a microphone, a radio transceiver, a battery pack and a control unit, all embodied in a small convenient housing incorporating switching and signaling structures.

[0015] As disclosed herein, wireless telephone instruments, e.g. cellular, operate as part of a composite system in cooperation with a central station having a multiple-port platform. The ports of the platform accommodate multiple wireless telephone instruments simultaneously. In a disclosed embodiment, the users of wireless telephone instruments are prompted vocally to speak
